Watch Wis. Officer Stop Knife-Wielding (Suspect) Threatening Polling Place

Source [officer.com](https://www.officer.com) from The Journal Times, Racine, Wisc. – Nov. 10, 2022

West Bend police were called in when a man brandishing a knife disrupted a polling place at the library by demanding poll workers "stop the voting".

WEST BEND, WI—A man pulled a knife and demanded poll workers "stop the voting" at a West Bend polling place Tuesday afternoon, the West Bend Police Department reported.

Reported at 12:35 p.m. Tuesday at West Bend Community Memorial Library, the incident ended with the suspect being taken in to custody, no injuries, and voting being able to resume at the library in less than an hour, according to the WBPD.

"The Police Department would like to thank the library staff for taking quick action and voters who waited patiently to vote," the WBPD said in a Facebook post. "The incident remains under investigation and charges will be forthcoming. There is no further threat to the community."

Police did not identify the man other than to say he was a 38-year-old male.

Next Month May Be The Last Month of Trigger!

This December marks the end of this Trigger Editor's ability to participate!

If you want the Trigger to continue, a new volunteer editor needs to step up and take charge!

For personal reason, the current editor needs to step-down, and hand over the editorship to a new member.

If you are a dynamic person with creative ideas, a modicum of skill and a desire to advance WFO through communicative participation, then this opportunity could be for you!

(This is a Quarterly Issue)

Massad F. Ayoob is an internationally recognized and highly respected American firearms and self-defense instructor.

Mas has been a part time police officer for 43 years, mostly at supervisor rank and he has appeared as an expert witness in numerous trials.

In addition, Mas has also won various state and regional handgun shooting championships.

He has taught police techniques and civilian self-defense to both law enforcement officers and private citizens since 1974.

Massad has published thousands of articles in gun magazines, martial arts publications, and

law enforcement journals, as well as authoring some twenty books on firearms, self-defense, and related topics.

His nickname is "*the bad ass of self-defense.*"

Home Protection

Sadly, home (and resident) break-ins have become increasingly common. However, there are a number of things you can do to either mitigate the threat and/or increase your safety factor.

If you are a homeowner, and it's reasonable, logistically plan your landscape. If possible:

Keep a clear area around your home so that anyone approaching your residence can easily be seen. Having motion sensing lights will also be more effective. Avoid bushes that someone can hide behind or keep them low cut.

An exception to close proximity shrubs might be to plant thorny, prickly bushes right under the first floor window. Some bushes to consider might be: Bougainvillea, Pyracantha, Blackberry, Roses, Barberry or Yucca. An article on using Defensive Shrubbery can be found [here](#).

Another deterrent is surrounding your house with motion sensor lighting. Most bad guys, like vampires, don't like light or being seen.

Battery operated security lights can be quite bright and be cost effective. In most cases they use "D" size batteries and only need to be replaced annually.

Be sure to mount them high enough that they are not easily accessible without a ladder.

If you have a garage, always keep the garage door closed and locked. If there is an access door between the garage and your house, always keep that door locked as well.

If you keep your car(s) outside, never leave anything of value inside. Most folks lock their car doors, some intentionally do not, trying to avoid broken car windows. Your call.

Most doors can be easily defeated. Quite often both the hinges and locks are secured by short screws that can, without much effort, be torn out.

For primary doors, replace those short screws on the locks and hinges with long, heavy duty 3" screws or bolts. Most all residential doors are framed with 2"x4" which are securely in place.

Designate a room in your home as a "Safe Room", most often this would be a bath room. Again, reinforce the locks and hinges with secure long screws or bolts.

If the door is an easily defeated hollow core, consider replacing it with a solid wood or even metal door. Add dead bolts at both shoulder level and knee level (also with long screws/bolts).

If your "safe room" is on an upper floor, also store rope ladder in the closet if you need to escape from the window.

If you have an old cell phone that is no longer connected to a provider, most cells still allow completing "911" calls, so keep that phone charged in your "safe room".

If you need to call 911, always stay on the line. Remember everything you say and every noise is recorded over the phone. With this in mind, if the perpetrator is at the door, yell a warning in your defense, such as: "Go away! I have a gun and will shoot if I feel threatened! Police are on their way!"

You can also ask that the police use a code word when they are finally at your door so you know it's the police, not the bad guy, at your door wanting to enter.

A Note on Light

Two primary units of measurement used for light are Kelvin (color) and Lumens (brightness).

Kelvin refers to the "color" of light. The lower the number the more red-yellow the hue. The higher the number the bluer the hue. An old fashioned warm yellowish tungsten

light has a kelvin value of about 3,200 while daylight can range between 5,600 to 6,500 kelvin (and can appear bluish, especially at night)

Lumens (lm) refers to the brightness of light. (roughly speaking, one lumen is the equivalent to the light from one candle.) As comparative examples: 15 watt bulb = 40 lm; a 60 watt bulb = 800 lm; a 100 watt bulb = 1,600 lm.

Wisconsin Gun Rights: 2022 Midterm Elections Report

Wisconsin Gun Owners ([WGO Staff](#))
November 9, 2022 — Milwaukee, Wis.

When it comes to Wisconsin gun rights, partisan gridlock is a double-edged sword.

With the reelection of Senator Ron Johnson (R), Governor Tony Evers (D), and Assembly Speaker

Robin Vos (R), gun owners in Wisconsin can expect more backbreaking work on the pro-gun lobbying front when the new session convenes in Madison in early January.

All three races were high-profile, and all three candidates earned F- ratings from WGO due to various factors, including not returning their gun rights surveys or mistreating gun owners during the legislative session.

Shoot Your AR for One Tenth the Cost!

© 2022 Gary Behr

I recently found a very inexpensive way to shoot my AR-15 — by converting it to .22 LR Rimfire!

Instead of paying about 50¢ a round for .223/5.56 ammo, the cost drops to a tenth of that, only about 5¢ a round for a .22 rimfire!

I invested both in the .223/5.56 to .22 rimfire conversion kit, plus a recommended “AR Reliability Kit”. Total investment (at the time of this writing) was just under \$200 (including shipping.)

The primary conversion unit, manufactured by CMMG, consists of a replacement Bolt Carrier Group (BCG) and includes three 25 round AR magazines. (additional mags, \$20-\$25 each,)

Installation of the conversion unit is extremely simple. Just slide out the original bolt carrier

group on the AR and slide in the conversion replacement .22LR BCG. — *That's it!*

To be honest, it takes longer to load the 25 round magazine than it does to replace the BCG.

The accessory kit adds several features: There is a “Pressure Plug” for the recoil spring that helps press/secure the .22LR bolt into the chamber for a firm fit; an “insert” plug that fits in the charging handle to help avoid blowback (against the face) from the gas return; a small “Bolt Buffer” and replacement springs for both the extractor and firing pin.

I’ve taken it to the range and fired hundreds of rounds, using various brands of ammo, without a hiccup!

Considering the significant cost difference in ammo, the entire conversion unit will have paid for itself by about the 443 round!

Keep in mind, the .22 rimfire ammo tends to leave more residue, so frequent cleaning should be expected.

[CMMG 22LR AR Conversion Kit](#), Bravo, w/3 Magazines, BLK, Product #22BA651 \$229.95

A lower cost CMMG conversion unit is available from [Battlehawk Armory](#) for \$164.94 (including S&H)

The 22LR AR Reliability Kit is available from [borebuddy.com](#) for-\$33.20 (including S&H)

Trigger Editor Info

The current newsletter editor has run into some personal issues which will necessitate stepping down as *Trigger* editor by the end of the year.

The current editor has formatted and standardized the newsletter to make it as convenient as possible to update and publish each month's edition.

The layout format used is Mac's "Pages", although Adobe "InDesign", Affinity "Publisher" or even Microsoft "Word" could also be adapted.

(Mac's "Pages" is a free program, included with the operating system and is easy to configure.)

Image adjustments are pretty basic and can be done with most any photo application.

Transitioning to a new editor should be relatively painless and seamless, especially if the new editor is on a Mac system. If you are interested, please contact the current [editor](#) for details.

Being the editor can be fun, informative, rewarding and a chance to contribute to WFO!

By the way, the reference to "*Fame and Fortune*", as editor, may have been a little optimistic.

Celebrating the December Holidays!

There are many more days than only Christmas that are celebrated in December. Listed are a few of the most popular, but you can find all 18 December celebrations [here](#).

Winter Solstice (Yule) — December 21st

Winter Solstice or Yule is celebrated from December 21st through January 1st and marks the longest night of the year.

Traditions include decorating evergreen trees, lighting fires, [and giving gifts](#). For many Pagans, it is also a time to honor the Goddess as she gives birth to the Sun God.

Summer Solstice for 2023 will occur on Wednesday, June 21st and marks the longest period of daylight for the year.

Hanukkah — Dec. 18th through Dec. 26th

Hanukkah, also known as the Festival of Lights, is a Jewish holiday commemorating the Holy Temple's rededication in Jerusalem. Celebrations last for eight days and include the [lighting of the menorah](#), eating fried foods, and exchanging gifts.

Christmas — December 25th

You'll find Christmas on every December global holidays list from 2020 to 2022 since it's one of the world's most popular festivities. In fact, in

2021, Americans planned to spend [\\$886 on Christmas gifts](#) alone.

This Christian holiday commemorates the birth of Jesus Christ, and traditions include decorating Christmas trees, attending church services, and exchanging gifts. Santa Claus, reindeers, and elves are also popular holiday symbols.

Boxing Day — December 26th

Boxing Day is celebrated in many countries, including the UK, Canada, and Australia. The holiday originally started as a day to give gifts to less fortunate people. Nowadays, it's more of a general holiday where people can enjoy time with family and friends.

Kwanzaa. — Dec. 26th to Jan. 1st

Kwanzaa is a seven-day African-American holiday that celebrates family, community, and culture. The name comes from the Swahili phrase "[matunda ya kwanza](#)" which means "first fruits of the harvest."

Traditions include lighting the kinara (candleholder), exchanging gifts, and feasting.

New Years Eve — December 31st

New Year is celebrated all over the world. The most common traditions include attending parties, countdown celebrations, and making resolutions for the new year (the most frequent being [going to the gym](#)).

Every Day is a Veteran's Day

Their day of recognition only lasts one day for the year. But for the Veteran, they live EVERY DAY as a Veteran! As civilians, most of us have no idea what their lives have been like or the sacrifices they may have made. All we may see is the uniform or a hat or other clothing reminders of their service.

Why not take a few seconds of your time, reach out your hand, and thank the Vet near you! It can mean a great deal to our Vet (who is likely far away from his home). A simple act of recognizing and appreciating their service can truly brighten their day! And if anybody deserves a brighter day, they do!

Veteran's Day Tribute (11/11/22)

*WGO blasts the county-level referendum as a mockery of objective truth
and an assault on statistical norms.*

Milwaukee, Wis. — In yesterday's 2022 midterm election, the Milwaukee County Board of Supervisors released a county-level referendum advisory question asking if the State of Wisconsin should ban semi-automatic firearms. The question, asked in a heavily biased and left-leaning county, passed.

Specifically, the question asked: Should the Wisconsin Legislature prohibit the import, sale, manufacture, transfer, or possession of semi-automatic "military-style" firearms whose prohibition is allowed under the Wisconsin and United States Constitutions?

The question was aimed at AR-15s and other "military-style assault weapons," which progressives can't help but misrepresent and demonize.

[Complete Article](#)

Easy Hints for Better Articles

These simple hints can vastly improve your public commentary and article submissions!

1) **Use your camera's flash on ALL outdoor photographs!** The advantages can be dramatic! Your flash, even if it's just moderately powered (i.e. using a phone camera) can subdue or eliminate facial shadows!

You may have noticed, especially on a bright day, the deep shadows in a subject's face. If the subject is wearing a visor hat, the result is mostly a black blob (deep shadow) where the face used to be!

The other major benefit of *always* using your flash is it adds a sparkle (catchlight) to the subject's eyes. It turns the person from appearing cadaverous to looking lifelike, alert and attractive!

2) Another thing that can make world of difference is to **just get closer to the subject!** Do you really need to have your subject look diminutive? In most cases, empty sky, trees, shrubbery, buildings, walls, etc. add nothing to the story of the photograph. Small subjects also obfuscates detail and just plain wastes otherwise useable image space!

Another benefit of getting closer is it also makes your flash much more effective!

3) **List the names of all who are prominently depicted in each photo!** If a person is important enough to have their image displayed, they should also deserve the respect to have their names listed (with proper spelling!). You may know who they are, but chances are, 90% of the readers won't know who the person pictured is!

4) **Avoid using indiscriminate time frames, such as "today", "tomorrow", "yesterday", "last week",** etc. Those references only apply to the moment you write them and are worthless for future reference.

FOR EXAMPLE: "*Today I broke my leg!*" However, that "*today*" occurred ten years ago! You're much better off using "*hard*" references, as 9/5/2022, or September fifth or whatever date that applies. Offering a "*hard*" reference keeps everything in perspective, whether your text is read the following week or even ten years from now!

It's the simple, little things, as these, that can make a BIG difference! Especially to everyone who views or reads your contributions!

— And make *you* look better in the process!

Outside Stories Are *Yours* ~ for a Click!

Many of the stories and features presented in the Trigger are actually taken from other sources.

Rather than reprinting the entirety of the article. We'll offer a brief summary and then provide you with a link to the actual article.

If something interests you, just click on the blue link, otherwise you can move on to the next Trigger story.

You'll be able to easily identify the Outside Linked stories by this gold background.

This makes it easy for you to submit stories! If you see a story you think might interest or be important to other members, just copy the story's web address and email it to the Trigger editor.

We'll print a summary and the web link and give you submission credit!

This can make submissions to the Trigger super fast, extremely easy and offer our readers the opportunity for a much broader news coverage!

We Need Your Help!

Our newsletter depends on your participation!

We need your help to let the other members know what is happening and what is important.

Anything relevant that you might contribute will be gratefully accepted! It can be long or short. Write in your own words or accurately credit your source. **For dated events, please try to plan at least two months in advance.** Photos and graphics are always welcome! **(Be sure to identify the primary subjects.)**

For more submission information, see the following pages. This is YOUR NEWSLETTER!

Make it personal!

TRIGGER DEADLINES

Plan Ahead — Please allow up to **two month's lead time** to announce any date specific events.

It typically takes a month to compile each newsletter, for release the following month.

Submission Deadline: The 10th of the month.

We want, and **need your contributions!** Please help us serve the WFO community by allowing enough times to announce your special events!

Firearm Safety is No Accident!

[Ten Free Safety Cards](#)

These handy cards are especially useful for instructing youth!

Throughout their general training, (without saying a word) hold up one gesture and have them respond the *SafetyRule* for your gesture.

Make it fun!

Additional Gun Safety Rules

- ⊙ Always clear a gun every time you touch it!
- ⊙ Always wear appropriate eye and ear protection!
- ⊙ Always use only the correct ammunition!
- ⊙ Always wash your hands and face in cold water!
- ⊙ Always transport a gun unloaded, in the trunk!
- ⊙ Always store a gun inaccessible to children!

with Compliments — from the book
FIREARM FUNDAMENTALS — *How to be a Safe and Confident Shooter*
www.FirearmFundamentals.net

Your Contributions Matter

We can't have much of a newsletter without news, and that's where you can play an important part!

After all this is ***YOUR NEWSLETTER!***

Any contributions, large or small, are gratefully appreciated. Whether it be text, photos or graphics, they are all welcome.

It could be important "*hard*" news — light (nice-to-know) news — or even editorial opinions.

There are only a few things we ask:

- ★ Make sure your work is original, not just copied from another source (with your name as author);
- ★ If you are briefly quoting a source, be sure to include the name of the source;
- ★ Double-check to make sure the spelling of names and references are accurate;
- ★ If you're submitting a photo, the larger the file size the better. DON'T bother editing it, we'll take care of that;
- ★ If people can be easily recognized in your photo, be sure to include their name and title or position (i.e. Senator);
- ★ If the photo is taken in public, a "*release*" shouldn't be necessary. But if the photo was taken in a private setting, legally your safest bet is to get a "*release*". After all, who can afford a lawsuit?

([Contact us for more info](#))

- ★ **Most important:** Include your name, contact information (phone, email) and topic source.

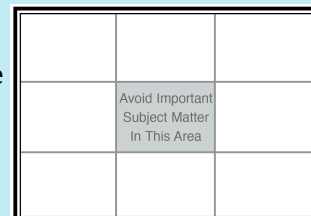

Imagine — Your name in print !!!

How To Take Better Pictures

Whether you are using a smart phone or a more conventional camera, these tips are for everyone!

- 1) When composing an image, use the "*thirds*" theory, where the most important part of the image is in one of the "*third*" frame sections, but NOT in the middle.
- 2) Check your background. Try and avoid poles or branches growing out of the subject's head, or an unwanted distraction in the back;
- 3) Always use your flash, even in bright sunlight. It can help fill in some closer shadows and also adds a "*sparkle*" to a person's eyes;
- 4) Take plenty photos of the same subject. With digital, the cost is negligible and it helps avoid an unwanted blink or glitch;
- 5) If you have the option, always use the highest quality image (largest size) setting;
- 6) If you're submitting the image for publication, DO NOT edit it. We'll do that;
- 7) If you're using images to tell a story, use at least three sets of images:
 - 1). A "*long*" shot to set the overall scene;
 - 2). A "*middle*" shot for a descriptive view;
 - 3). A "*Close-up*" for detail;

WFO Article Submission: Image and Text "*Releases*"

Some of our readers expressed concern, when considering submission of an article for our newsletter, about Copyright laws pertaining to "*releases*" for names and images.

According to **Stanford Libraries: Copyright and Fair Use**, these guidelines would apply (Reprinted with permission):

When to Use a Release

Whether you need to obtain a release depends on why you want to use a person's name or image. If your use is for commercial purposes—for example, using a person's photo in an advertisement—you need to obtain a release. If your use is for

informational purposes such as a documentary film or news article, you may not need a release.

Informational Uses

You do not need a release to use a person's name or image for informational purposes. An informational (or "editorial") purpose is anything that informs, educates, or expresses opinions protected under the First Amendment of the United States Constitution—freedom of speech and of the press. An informational use would include using a person's name or photograph in a newspaper or magazine article, educational program, film, nonfiction book, or informational website.

For "*Commercial Use*" and more information

WFO Mission

- ◆ To support, promote and preserve the Constitutional Rights of every American, specifically including the SECOND AMENDMENT.
- ◆ To protect and preserve the gun rights of all American citizens!
- ◆ To provide a respected, effective political voice for all Wisconsin citizens.
- ◆ To defend and preserve those rights against encroachment by political and anti-gun zealots.
- ◆ To aid in the safe, effective and cost efficient establishment and perpetuation of public and private firearm ranges.
- ◆ To promote all forms of firearm safety.
- ◆ To provide safe and effective firearms education and training to both adults and youth.
- ◆ To support and promote the principals and objectives of the National Rifle Association.

Firearm Safety

Wisconsin Firearm Owners (WFO) is committed to promoting Firearms Education and ensuring absolute firearm safety and the constant practice of all firearm rules of safety.

Whether it be for recreation, hunting, concealed carry, competition or Law Enforcement, all facets of safety are emphasized.

Club and Range Support

Wisconsin Firearm Owners (WFO) is the recognized State expert for advising the Wisconsin Department of Natural Resources, as well as clubs, and businesses, WFO is the recognized resource for designing, improving and upgrading ranges.

Competitions

Wisconsin Firearm Owners (WFO) is proud to provide an on-line resource calendar for known matches and events throughout the State. NRA discipline championships are authorized and promoted through the WFO. Match Directors are encouraged to utilize our on-line registration to list their upcoming activities

What Wisconsin Firearm Owner (WFO) Does

WFO is the only NRA State Chartered Association in Wisconsin.

WFO is your NRA and CMP State Association.

WFO sanctions State Championships for multiple shooting disciplines.

WFO is committed to advancing hunter rights and mentored hunting in Wisconsin.

WFO's lobbying efforts have helped clean up Wisconsin's handgun restrictions.

WFO, partnering with the NRA, led the lobbying efforts for Right to Carry.

WFO, partnering with the NRA, led the lobbying efforts for The Shooting Ranges Protection Act.

WFO provides Club and Range support for those looking to expand and improve their ranges.

WFO actively provides you a voice in Madison's Capitol to protect your Second Amendment Rights.
